

The student must be admitted to both the MBA program and the MSF program. University policy on dual degrees stipulates that a maximum of 50% of the credit hours for the shorter program may be counted toward both degrees. Therefore, the MBA/MSF degree requires a total of 73 units: the 55 units of MBA course work, to include 18 units of Finance electives, plus an additional 18 units of required Finance courses. This dual degree program is a five semester program, with graduation in August or December.

In summary:

- MBA Degree requirements: 55 units of course work
- MSF Degree requirements: 36 (30 units of coursework plus a 6-unit summer project or 36 units of coursework)

However: 50% (18 units) of Finance course work can be counted toward the MBA

Therefore, to receive the dual degree, the following are required:

- For the MBA degree –
 - 37 units of course work taken from the MBA core and elective curriculum
 - 18 units of Finance electives (not including FIN 510, but to include FIN 909 if Option 1 below is chosen)
 - 55 units** meets requirement for the MBA degree
- For the MBA/MSF degree – In addition to the above,
 - 18 units** in Finance (not including FIN 510)
 - Option 1: 12 units in Finance coursework (not including FIN 510), plus 6 units of MSF Project coursework (FIN 909)
 - Option 2: 18 units in Finance coursework (not including FIN 510)

Total Units: 73

The following list identifies the Finance courses available to meet the 36 units for completion of the MSF degree program. Specific courses required for the MSF degree depend on the chosen track of study– Corporate Finance or Investment Management/CFA (<https://msf.eller.arizona.edu/tracks>). If completing the MSF project, 6 units of FIN909, the credits will count towards both the MSF and MBA degrees.
